## SUMMARY

---

I am a Software Developer who enjoys exploring and solving problems in both Front-end and Back-end worlds. I like participating in hackathons and challenging myself to learn something new.

## EMPLOYMENT

---

May 2018 – September 2019

### Front-End Web Developer, Kentro

- Successfully and accurately translated design specifications from Figma into working code.
- Worked on a quick, easy, and secure authentication for users to login and sign-up.
- Created a simple user-friendly, responsive frontend for a messenger application so teachers and students could communicate with each other using Material-UI and SASS.
- Technologies used : React, Redux, Jira, Postman

September 2017 – July 2018

### Math Tutor, Math Tutoring Center, Queensborough Community College

- Tutored many college students from a range of math topics including calculus, differential equations, and linear algebra.
- Was one of the few tutors that specifically tutored statistics.
- Helped students easily comprehend the complicated material and helped them complete their homework and study for their exams.

January 2017 – September 2017

### Researcher, Physics Department, Queensborough Community College

- Created a database using Google Sheets and JavaScript of the physics demos that were in the department.
- Helped create, troubleshoot, and test a cluster made using Mac minis and Linux.

## SOFTWARE PROJECTS

---

**Personal website:** [Personal Website](#) (example of projects and hackathon projects)

### Spotify Playlist Manager Application ([Github repository](#) - [Try it out](#))

- Incorporated Spotify's API.
- Created a full stack project using the MERN stack and deployed it using Heroku.

## EDUCATION

---

**City College of New York**, B.S. in Applied Mathematics, September 2017 - December 2021

**Queensborough Community College**, A.S. in Engineering Science/Mechanical Engineering, September 2015 - June 2017

## SKILLS

---

**(proficient):** HTML/CSS, JavaScript, React, Node.js, Git, C++, MongoDB, Github; **(familiar):** Python, Jira, Postman, Linux, Bash, SQL
